The Original Scientific Article entitled “Determination of the expression of bone morphogen protein 15 and its receptors in laying hens’ ovary” by Abadjieva Vasileva D., Grigorova Jordanova S. published in the Mac Vet Rev 2023; 46(2): 171-176 (doi: [10.2478/macvetrev-2023-0026](https://doi.org/10.2478/macvetrev-2023-0026)) contains a technical error on page 172, section Material and Methods, subsection Western blot analysis, in the sentence: "The blots were incubated overnight at 4 °C with a primary antibody - rabbit against chicken BMP15 (Santa Cruz) at a concentration of 1:750 in blocking solution". The authors have omitted words “following” and “BMPR1 (Novus Biol., USA) or BMPR2 (Novus Biol., USA)”, which will be added and the corrected sentence will be:

"The blots were incubated overnight at 4 °C with the following primary antibodies rabbit against chicken BMP15 (Santa Cruz Biotechnology, CA), BMPR1 (Novus Biol., USA) or BMPR2 (Novus Biol., USA) at a concentration of 1:750 in blocking solution."

The authors and the editorial team of the Macedonian Veterinary Review apologize for any inconvenience that may result from this oversight.
