

PEER REVIEW WEEK 2016

19TH - 25TH SEPTEMBER

Theme: Recognition for review

Peer Review Week is a global event celebrating the essential role that peer review plays in maintaining scientific quality. The event brings together individuals, institutions and organizations committed to sharing the central message that good peer review, whatever shape or form it might take, is critical to scholarly communications.

This year's theme, **recognition for review**, explores all aspects of how those participating in review activity - in publishing, grant review, conference submissions, promotion and tenure, and more - should be recognized for their contribution.

For more information about how you can get involved or how to publicize your Peer Review Week activities, please visit peerreviewweek.org.
